

INSURANCE LIST

Fresno Cancer Center accepts all major PPO's, Medicare, and most HMO's for cancer treatment modalities that include: intensity modulated radiation therapy (IMRT), image guided radiation therapy (IGRT), 3-Dimensional Conformal Radiation Therapy (3D-CRT), stereotactic body radiotherapy (SBRT), and stereotactic radiosurgery (SRS).

We encourage individuals to contact our office directly, regardless of insurance plan or coverage, as we make every effort to provide care to all cancer patients.
